The moment that our eyes met, our heart skipped a  
beat

I was still, the heat went through my body

The feeling was real, this feeling is real

Hold me baby, close the door,

Let go

I wanna dance tonight until we lose control

Baby if you want to, we can take it all the way

Forget about the world boy, come and dance the night  
away

Is this reality?

Don't wake me up if I'm dreaming, if I'm dreaming

This feels real, feels realer than reality

This feels real, feels realer than my body

This feels real baby, don't wake me uW if I'm dreaming

If I'm drea-drea-dreaming

Get close and feel my body

It's turning me on

What took you so long?

To come and give it to me

Hold me baby, close the door,

Let go

I wanna dance tonight until we lose control

Baby if you want to, we can take it all the way

Forget about the world boy, come and dance the night  
away

Is this reality?

Don't wake me up if I'm dreaming, if I'm dreaming

This feels real, feels realer than reality

This feels real, feels realer than my body

This feels real baby, don't wake me uW if I'm dreaming

If I'm drea-drea-dreaming

I want you, want you right here

I want you, want you, need you right here with me

Right now!

Baby if you want to, we can take it all the way

Forget about the world boy, come and dance the night  
away  
Is this reality?  
Don't wake me up if I'm dreaming, if I'm dreaming  
This feels real, feels realer than reality  
This feels real, feels realer than my body  
This feels real baby, don't wake me up if I'm dreaming  
If I'm drea-drea-dreaming
