Here I am back again girl, how do you do  
Tell me friend how long it's been since  
I've been seeing you  
We had some good times and some long talks  
Your favorite subject love  
You're experienced and I'm not  
I think we've talked enough  
Yes I believe we've talked enough

I need someone to love me  
I need someone to care  
Stop this feeling above me  
Know girl  
The time is right  
It's delivery night  
It's delivery night

Down on Main Street the boys are talkin'  
'bout your favorite dance  
Now your habits don't offend me  
It's just I ain't had my chance  
I have been your crutch when you've been scared  
I've wet dreamed of your naked touch  
But dreams we've never shared  
Yes dreams we've never shared

I need someone to love me  
I need someone to care  
Stop this feeling above me  
Know girl  
The time is right  
It's delivery night  
Lord keep my heart in sight  
It's delivery night
