"Love You Most"

Angels always appear
Whenever you are near
You are the bomb
You make it calm
That's why I love you most

Feelings can ill I'm Told
Grab me before I explode
When I'm with you
Hell seems too cool and
That's why I love you most

The demons rave
You dismiss them like children
This shattered world
Fails to faze you at all

Oh I love you most...

You share a stunning hope
I've got my dreams by the throat
When I'm with you
Hell seems too cool
That's why I love you most
You are the bomb
You make it calm and
That's why I love you most
