Why do I open my heart for a fall?
Why do I open my heart at all?
I've got a girl with a heart i can hold
And we'll keep searching down this
Open road

The greatest bond
Don't exempt you from the hurt
Or keep you from the glory
While your love's in the dirt
We all hang on
As life's mysteries unfold
Forever seaching down this
Open road

Now I like running with the young
And the old
'Cause we're all serching down
Yeah, we're all learning down
Forever searching down this
Open road

Now I like running with the young
And the old
'Cause we're all swerching down
Yea, we're all learning down
Forever searching down this
Open road
Open road...
