You have become, my wishing star  
Your laugh bring tears, how fine you are  
But someone done wrong, you want them to pay  
We can't take a hit that dark today

I know revenge, the cost is high

Is this the hill you want to die on?  
Is this the hill you want to die on?

Like playng with the children  
Forgetting the clock  
We've stumbled on to a world we could rock  
So baby let them  
Small people scatter  
Like bad jacks cast from heaven  
They don't matter

Is this the hill you want to die on?  
Is this the hill you want to die on?  
I am a rock you can rely on  
This ain't the hill you want to die on  
Die on
