"Call To Love"

Those fancy things your new boy bought for you won't
save a jaded girl like you
So I must question what you take me for
I know for him your love is not true

So while you lay with that joker tonight, my friend
And his love just ain't doing you right again
Won't you hear my heart
I'm transmitting a call to love

It's true I heard a birdy say your name
But I'm a straight talk woman, got no time for games
Don't need my heart kicked around the block no more
You may be a smooth talking daddy, but I've heard it
all before

So I don't care if you're making that sound
No heart receives love when its broken down
So how am I supposed to hear,
Or take heed to this call to love?

I found a hundred different ways to say that I am not in
love with you
Or maybe more if I was sure but I'd be lying not to be
your fool

So come on--Love is a fine thing to take a chance on
Send it back before the signal is gone
Oh won't you call to me
Won't you send me your call to love

[repeat]
