You and me  
We used to be as we wanted to be  
We used to see what we wanted to see  
We used to feel and thought it's all for real

Me and you  
We used to believe that all  
Our dreams come true  
And all the gates we've  
Been walking through  
And though  
I should have asked if you want this too

Kisses on your feet  
This is underneath

From the heel to the toe  
You always know  
Where to go  
Change from black to blood  
As you want  
Playing God

You and me  
We shared the belief in a community  
We shared the night and sexuality  
We shared the words "you are the one for me"

Me and you we shared the things we wanted to  
And all the gateways we were passing  
Through  
And through  
I should have recognized isn't you

Kisses on your feet -  
The slingback of your heel  
Whispers in your ear -  
Taking down your peel

From the heel to the toe  
You always know

Where to go  
Change from clack to blood  
As you want  
Playing God

The moonwalk of a cat  
Second skin colored in black  
Open the zipp on your back  
Closing your anklestrap  
And get into it  
The slingback

Get into the slingback  
Get into it  
The slingback
