Lost boy lost boy - kick your toys  
There is more for you to do, than throwing a coin  
Still you have the choice, just to make some noise  
I know you're sick and tired - go and touch the wire  
Do as you desire - go and unleash fire

High tide high tide - take the ride  
There is more you see, just open your eyes  
Turn out all the lights and dive into the night  
I know you're fair and that you care  
And you would love to be there,  
But everything you bear will finally be dead

Again you're running away  
Woven hands which pray

They say you're on your way up  
But it's like being in love  
The world is cold enough  
I can hear you say

You're still running away  
It will always be the same  
Listen to what I say to say  
It's even colder above  
The world is cold enough  
The world is cold enough

Drown boy drown boy - save your life  
The gate of heaven is closed from the inside  
Of course you wanna know what it would be like  
And you will never agree you're walking dawn  
The one way street
