Proud, narcissistic mask
Your eyes show the heart of a coward
Your vanity will be your demise
Frailty will concede your ruin
Cruel, villainous acts
Vindictive, you falsify and transgress
Nothing ethereal can change myself governing way of
chaos

Stand to fall, never to rise again
Forgotten, salvation is lost

Take my hand, we will perish together
So today you will remember me
For the years you have forsaken me

Impiety, I profess, is all you know
Your heedless notions of loyalty, deplorable
I'm afraid this nightmare will last forever
Forever, now more than ever my hatred will burn
For violence, I dream of your death, and as the sun
sets
I swear it will be your last

Stand to fall, never to rise again

Forgotten, salvation is lost

Take my hand, we will perish together
So today you will remember me
For the years you have forsaken me

I'm losing sight but know that your dream is dead
And I will fight this, I won't turn away
I'm losing sight but my pain will die with you
Drown in flames, nothing will suffice

Drown in flames, in the deepest part of hell
I still see your face
Thieves betray, through the flames surrounding
I will scream your name

Take my hand, we will perish together
So today you will remember me
For the years you have forsaken me

I'm losing sight but know that your dream is dead
And I will fight this, I won't turn away
I'm losing sight but my pain will die with you
Drown in flames, nothing will suffice
