It's a little messed up round here,
It's a little messed up round here,
It's a little messed up round here,
It's a little messed up round here,

No one told me to dress up
Well, you, wow, how? This is pretty damn queer
Oh shit now we're stuck, we're together for real

Oh I can see you're looking down on me and
Frowning and groaning oh I don't like this, no I don't
like this
Did I just hear your stomach gurgling like this - ooh

It's a little fucked up to be stuck in here with you
don't you think
Well now you're laughing at me, but you won't trap me
Cos I know how to dodge your tricks, that's all right with
me
Please do take your time, please do take your time
I'm real I'm cool I'm ooh

I'll let you be oh cynical, critical, oh lyrical, chemical
Well brother you can do better than that I assure you
Cause you could be
Oh seminal criminal eminal animal -
Deminalcriminalesminalanimal bi-biblical
And God knows- analitical

Hehehey
Hello kids!
I'm gonna have (I'm gonna have)
I'm gonna have the shapest flow (The shapest flow)
And you're gonna tremble, let go home GO HOME
I'm gonna have the shapest flow
And you're gonna tremble and go home

Well no i'm not going anywhere cos I wanna stay
And beg you to tell me your secret tips
I'll let you taste my lips if I have to but please
Tell me how, teach me how

Tell me how, teach me how!
Ow mister (uh)... can i call you (No) twista, huh ? uu!

(lalalalalalalalalala...)

Guess who's resurrected, guess who's infected
Guess who's trying to jump out of the frame
Escape the flames of hell on my back
But no, you never expected, mister inspecta,
Never expected this to spoil, your diagnosis,
Lord knows your hypothesis' whack

You should know who's leading the plot right now
You should see who's feeding the wolves by now
Well now it's time to grab my lipstick and
Blab till my lips burnred, anyway
You're not alone on the ring, no you never was
You're not the only bloke with a sting
Ever heard of a crowned fighter dressed all in white
Ever heard of the mighty lady queen dot kong
Queen dot kong
