Satisfaction guaranteed
So read the teenage magazine
Summer lovers, summer dreams
In the front row to the scene

20 ways to make him sigh
Girl I don't wanna lie
When the new trends explained to children

Tricks to attract and get hurt
Can you deliver the racy goods
To find what everyone's bought
Think what no one has thought

20 ways to make him sigh
Girl I don't wanna lie
When the new trends explained to children
All it's still in a purple prison

A look no one wants to see
Like an ugly person on a movie screen
The beginning and the end are clean
Seduction of the world is your fantasy

You don't know why your caged bird sings
I guess you're more concerned
With the immediate things
Looking good in your jeans
