Hear those sounds rocking all around
See the crowds shaking off the ground

Feel the freedom like nobody else
Feel the power of the universe

When the sun goes down gotta feel so fine
love is all around shaking up the ground
open up your mind gotta feel so fine
when the sun goes down

When the sun goes down gotta feel so fine
love is all around shaking up the ground
open up your mind gonna feel so fine
your way.....

Shake your body and break it !!!

Shake your body and break it !!!

I'm planning for your thoughts. Winner drops aren't so
bitter

I will go your cluster someday, pray if you're a prayer
The reason for my run is not so hard to swallow
if you free your mind then your fire must swallow

Move, move >> Shake your body and move
