Fast life living got me scooping on that shit
Things will never be the same, bruise will be the click I
claim

Put that shit on errythang, put that shit on errythang
Balling just to maintain, lucie's rushing in my brain
Ain't got no dialer to my name, but put that shit on
errythang
Put that shit on errythang, put that shit on errythang

Put that on my mind, I swear to god, I put that on my
great, great, great grandma
Put that on my squad, that I'm gonna get it, any time
... snow or hell, I'm on my grind
It's not how it happened
Blow 7, swisher rolled up theoretically
You broke, you don't think logically
I have... in 2003, so when you bought it
I'ma read it...
My... nigga got 8 for a robbery
In this... so it's commissary, so get suited
They say I need the... when she pop, over shot
When she stop, I don't know
All on her jaw, some on her nose
Dripping her shoes, some on her clothes
She's a nasty, dirty, hoe
Even let me put it in her bum, hole
Run up on the corner like where you gonna go
He deep oh, no you ain't no
Legs in the air had a... hard time
Said she love me, but I don't know her
They stop

Put that shit on errything, put that shit on errything

New in up mayhem, I kill rappers, break dance
Smile in your face, tryina shake hands, I break hands
Shoot your arms off, dump your body in the wasteland
From Detroit city, they shit over space jams
At the funeral, chill with the preacher, amen
Took steps down from yays, they robbing off the
raybans
... chilling in the basements
Jumping fences as soon as they see them raybans
Always wonder why... got mad when I made plans
Rap... I spray they face with ray cans
These local raps don't even have a game plan
I step in they stoop, turn that... in a gangland
I'm a bruiser bitch, off that dumb shit
And I don't trust these hoes, oh for dumb bitch
This... they some dumb shit
I knock your head off before you reach that trunk...
