[Verse 1: Danny Brown]

Bet your towels on war how, bounce that ass like a pogo
Shake and roll like a crab game in Las Vegas casino
Call up one of them freak hoes that bounce that ass to that Diplo
She take a dip, then take a sip, dip dip dip
All I want her do is make her ride this dick
Bouncin' on that ass while she bitin' on her lip
Really wanna grope when she look back at it
With a look on her face like she just did match
Jean phones cost about eighteen hundred
Pop a little pill so you know I stay blemmy
Blowin' that sticky now it's time to get freaky take a dip in the back rubber gun in my finger
Tanga got me rollin'
Thing she keep on woah
No way that I'm controllin' so I gotta put cheat code
We smokin' on that potent, drinking on that potion she turnt up,
Hopped in her hand stand bounced that ass in slow motion

[Hook x2: Danny Brown]

Say oh my God, little mama be twerking hard
When she back that thang, she clapped that thang,
she for sure got my dick hard

[Verse 2: Danny Brown]

And I just wanna take her home and wear you out
Given free, no cashin' out
Eatin on your pussy got you squirtin' on your blouse
Hit it from the back on the living room couch
You wanna thing that your man wont do
Before bust one bitch you gotta bust too
Run around to got to do what it do cause I just did me so you gotta do you
Trapstar girls keep twerking it,
Let me see what you working with
I'm watching you and I'm wondering if you can do that with my dick in her hand

Her ass lookin' ridiculous, make me want to get in it
I swear to God she got angry, don't stop girl keep
gettin' it

[Bridge x2: Danny Brown]

Toes on the wall and her ass in the air
And she twerk that thing like she aint have a care

[Hook x2]

Express yourself, express yourself (x4)
Gon' girl express yourself

[Verse 3: Danny Brown]

Pop the pussy before I go nigga
