[Verse 1]

Close my eyes, feel like Iâ€™m going down  
Then I elevate at 90 miles an hour,  
And all I see is stars and they coming at me  
Sort of like a meteor shower  
My foreheadâ€™s sweaty, my eyelids heavy,  
Feeling like I ainâ€™t goinâ€™ make it  
Cause inside my headâ€™s like a firework show  
In the 4th July in Las Vegas  
Said, Iâ€™m trippinâ€™  
Iâ€™m trippinâ€™,  
Feeling like I just came up,  
I done took mer a couple more pills  
Next thing I know, Iâ€™m taking off my shoes  
And Iâ€™m on walking on these clouds like  
marshmallows  
Nodding off, smellinâ€™ like rose petals  
Zoning off, two-three like the theme in hell fire and  
angel wings  
Iâ€™m conscious of that world, gone insane â€™bout that  
world  
All these drugs up in me, itâ€™s a miracle I am here aâ€¦  
Iâ€™m not like a mortician,  
Going down with Oakland bitches, they say you hella  
bougie  
Rolling back all of them coupes

[Bridge]

Iâ€™m smoking, back to back, back to back, back to back  
Itâ€™s the blunt after blunt rotation  
Now Iâ€™m in a kush coma off the OG aroma  
And my brian going on vacation  
Kush coma  
Iâ€™m smoking, back to back, back to back, back to back  
Itâ€™s the blunt after blunt rotation  
Now Iâ€™m in a kush coma off the OG aroma  
And my brian going on vacation  
Kush coma

[Hook]

Kush coma, I am in a kush coma

Kush coma, I am in a kush coma  
Kush coma, I am in a kush coma  
Kush coma, I am in a kush coma  
Kush coma, I am in a kush coma  
Kush coma, I am in a kush coma  
Kush coma, I am in a kush coma  
Kush coma, I am in a kush coma

[Verse 2]

Half a sleep with that cotton mouth  
Weed roll house on plantation  
Look inside of my gem ring...  
Get my head looking like fake titan screen  
Get my mind drippin'  
Gotta get away from all this bullshit in my way  
Knowing god damn well when the high go away  
Same shit gonna be still in my way  
I'm a slave to this flithy...  
So nigga want somethin' wet in it  
Been smoking blunts since high school,  
Now look at all the bullshit I been through  
Wanna pass out, the weed fading off  
Nigga gotta keep one eye open  
Cause nigga ain't tryna miss the next turn  
Nigga roll up, then we starting smoking  
I'm smoking on that ocho  
Got my mind that cosmos  
Spitting on that purple  
Got a nigga in slo-mo  
Dipping in that molly, feel like I'm doing 100 on a  
Harley  
Tell your baby mama sorry,  
That was one night and please don't call me
