We are, we are, we are, we are the only ones
That can bring it, bring it home.
We are, we are, we are, we are the only ones.
This is an invasion, the unwanted kind,
I'm all about domination, that's my state of
mind.
I'm gonna build an empire, so what's yours is
mine.
We're gonna take it home tonight.
Let's make this one to remember,
We're blowing up the sky like the fifth of November.
We don't stop, 'cause we're impatient
The anticipation is pumping, pumping, pumping.
Carry the light from the fire,
I can see it burning in your eyes.
Do or die, we're crossing the line,
There's nowhere left to hide.
Tell me what you waiting for
What you're living for?
We're bringing it home,
No one's left behind.
You're not alone.
We are, we are, we are, we are the only ones
That can bring it, bring it home.
We are, we are, we are, we are the only ones.
When I'm gone will you miss me?
We'll find out in time.
I'm gonna go down in history
As the one who changed your mind.
They said that I'm dangerous, so what's yours
is mine.
We're gonna take this home tonight.
Let's make this one to remember,
We're blowing up the sky like the fifth of November.
We don't stop, 'cause we're impatient.
The anticipation is pumping, pumping, pumping.
Carry the light from the fire,
I can see it burning in your eyes.
Do or die we're crossing the line,
There's nowhere left to hide.
Tell me what you waiting for?
What you're living for?

Weâ€™re bringing it home.
No oneâ€™s left behind,
Youâ€™re not alone.
We are, we are, we are, we are the only ones
That can bring it, bring it home.
We are, we are, we are, we are the only ones
That can bring it, bring it home.
Right here where you meant to be
Iâ€™m gonna get my hands on you, eventually.
I swear lifeâ€™s a deal
And mineâ€™s called victory,
Thatâ€™s why I always come first, literally.
Theyâ€™re running over like, youâ€™re kind
All on eyes on the prize, but youâ€™re mine.
Never give off a sign you canâ€™t go a day without
thinking about, just
Just carry the light, from the fire
I can see it burning in your eyes.
Do or die, weâ€™re crossing the line,
Thereâ€™s nowhere left to hide.
Tell me what you waiting for?
What youâ€™re living for?
Weâ€™re bringing it home.
No ones left behind
Youâ€™re not alone.
We are, we are, we are, we are the only ones
That can bring it, bring it home.
We are, we are, we are, we are the only ones
That can bring it, bring it home.
