We are, we are, we are, we are the only ones that can
bring it, bring it

Home

We are, we are, we are, we are the only ones Â...

This is an invasion, the unwanted kind
IÂ'm all about domination, thatÂ's my state-of-mind
IÂ'm gonna build an empire, so whatÂ's yours is mine
WeÂ're gonna take it home tonight
Oh oh oh oh

LetÂ's make this one to remember
WeÂ're blowing up the sky like the fifth of November
We donÂ't stop cause weÂ're impatient
The anticipation is pumping, pumping, pumping

Carry the light, from the fire
I can see it burning in your eyes
Do or die, weÂ're crossing the line
ThereÂ's nowhere left to hide

Tell me what you waiting for
What you living for
WeÂ're bringing it home
No ones left behind
YouÂ're not alone

Cause we are, we are, we are, we are the only ones that
can bring it, bring
It home
Cause we are, we are, we are, we are the only onesÂ...

When IÂ'm gone will you miss me
WeÂ'll find out in time
IÂ'm gonna go down in history
As the one who changed your mind
They said that IÂ'm dangerous, so whatÂ's yours is
mine
WeÂ're gonna take this home tonight

LetÂ's make this one to remember
WeÂ're blowing up the sky like the fifth of November

We don't stop cause we're impatient
The anticipation is pumping, pumping, pumping

Carry the light, from the fire
I can see it burning in your eyes
Do or die we're crossing the line
There's nowhere left to hide

Tell me what you waiting for
What you living for
We're bringing it home
No ones left behind
You're not alone

Cause we are, we are, we are, we are the only ones that
can bring it, bring
It home
Cause we are, we are, we are, we are the only ones that
can bring it, bring
It home

Right here where you meant to be
I'm gonna get my hands on you eventually
I swear lifes a b--
And mine's called victory
That's why I always come first, literally
They're running over like, you're kind
All on eyes on the prize, but you're mine
Never, give off a sign you can't go a day without
thinking about just

Just carry the light, from the fire (from the fire)
I can see it burning it your eyes (I can see it burning)
Do or die we're crossing the line
There's nowhere left to hide

Tell me what you waiting for (tell me what you waiting

can bring it, bring
It home
Cause we are, we are, we are, we are the only ones that
can bring it, bring
It home
We are, we are, we are, we are the only ones
