Don't tell me it's all over-Don't break ny heart in two
Happiness is when I'm with you. Is it true you've found
another -are you leaving me behind What do you want
with his love -you've already got mine so what do you
want with somebody new -you've already got a love
that's true you'regonna look back and long for the day-
you want the love you threw away--you will remember
this heart you've broken if you leave me far behind -
What do you want with his love you've already got mine
(instrumental pause) So what do you want with
somebody new--you've already got a love that's true
you're gonna hurt me much more than you know if you
really mean to let me go--you will remember this heart
you've broken if you leave me far behind--What do you
want with his love, you've already got mine--What do
you want with his love, you've already got mine
