Your daddy called you down to the farm  
Said he needed the crop in the barn yesterday  
Two days gone six days there all I do is sit and stare at  
a TV  
Well I ain't done nothin' yet but baby don't forget how I  
get when I get lonely  
Well I ain't strayed a little bit cause baby you're still it  
but I'm gettin' lonely

Your sister kept you busy all last week  
Movin' her back to Albuquerque New Mexico  
Your girlfriend called the week before that  
Said she was sad and didn't want to be all alone  
Well I ain't done nothin' yet...  
[ guitar ]  
I painted the house and I painted the town  
Just keepin' busy till you get back around to lovin' me  
It's Friday night the phone just rang  
It's that girl ole what's her name to say she's free  
Well I ain't done nothin' yet...  
I'm gettin' lonely don't let me get lonely
