The more I see you, the more I want you,
I want you now
The more I want you, the more I need you,
I need you now
So take my hand now, take my hand now
I want you night and day
The more I see you, the more I want you,
And I want you right away

But it may take time to get you in my life
It may take time and time is on my side
It may take time for you to be mine
And time is all I want with you

When I see you, I go crazy
My heart skips a beat
When I'm without you, you're all I think of,
So come on just take the leap
I want you badly, yes so badly
Come on Colleen
Through the good times, through the bad times,
And all the times in between

But it may take time to get you in my life
It may take time and time is on my side
It may take time for you to be mine
And time is all I want with you
