Over the mountains again
Wandering above the plains
Far up on my mountainside under the fiery lights
I call my world the mountains of fire
I am watching the flames
I call my world The mountains of fire and flames
Fire and flames

Upon the mountain I stand
Horizon sights at my hand
Watching all over the sky
At one with the burning light
I call my world the mountains of fire
I am throning my day
I call my world
The mountains of fire

Bound to my fate
I call my world the mountains of fire
I am watching the flames
I call my world
The mountains of fire and flames
Fire and flames

Over The Mountains
Over The Mountains
Over The Mountains
Over The Mountains

Over The Mountains
Over The Mountains
Over The Mountains
Over The Mountains
