Her name is Nina
She's sexy like a prima ballerina
I dream of her every day
My life is not the same without those wonder blue eyes

Oh baby, baby

Tell me
Which is the song you like and I will sing it
Tonight we could be together
Just gimme a chance to prove that I'm the man of your
life.

I've got you
On the back of my mind
Honey be careful you can make me blind

Kinda dizzy, that's what I fell
When I see you walkin' from my automobile

Save me
Today
Whenever you want to
Go far
Away
I'm gonna be next to
You all
The way
The world is a perfect place to
Be free

Her name is Nina
In Italy they call her signorina
A natural good vibration
I got to get a sound that makes you think of my love

Oh baby, baby

Kiss me
This moment will be gone within a second
Or maybe will last forever

Remember that I never met a woman like you

Save me
Today
Whenever you want to
Go far
Away
I'm gonna be next to
You all
The way
The world is a perfect place to
Be free

Save me
Today
Whenever you want to
Go far
Away
I'm gonna be next to
You all
The way
The world is a perfect place to
Be free

I've got you
On the back of my mind
Honey be careful you can make me blind

Kinda dizzy, that's what I fell
When I see you walkin' from my automobile

Aries, Libra
I don't know your sign
Gemini Skorpion
It will match with mine

Got to get the papers
Read the horoscope
Oh Sugar
It's my only hope
