Here comes the night  
Once again  
I'll be feeling lonely  
Oh, if only things could work out like you've planned  
Where can love be  
Tell me why it's so hard to find somebody  
Who will stand by me  
And take the time to understand  
And show me love again

[CHORUS]

I want the real thing  
Or nothing at all  
I need someone that I can be sure will catch me  
If I should fall  
Someone who'll be there when I call  
Then I'll know that it's the real thing  
I want the real thing  
To hold me each night  
Someone to love me over and over  
Making the future bright  
Somebody who will make it alright  
And give me the real thing

Where is the moon?  
Won't it smile  
On just one more dreamer  
Let your beams come down  
And fill my empty room  
Here comes the night  
But if there's still a chance  
That love can find me  
I'll be here  
Crossing my fingers

I want to know for sure  
That I can feel secure  
Knowing I've found an everlasting love  
And once I get that under control  
Then I won't let go
