a geyser of blood will spray, cascade, bleeding from  
the face (x2)  
will my blade convey, malay, chaos (x2)  
suffering

this is what we have become  
this onslaught has begun  
this war is now our own  
this is what we will call home (x2)  
fuck it  
we call it our home

defend with bloodshed  
with bloodshed

you never leave me alone  
one more time  
now ill leave you alone

cause baby,  
I want to tear you, apart, and be the maggot,  
and i, want to taste you, from the inside, alive

i want to taste your fucking heart  
tear the flesh and bones off virgin prey  
beg for death as its near, i will love your blood flood  
paint the walls red with my gore party  
and eat the flesh  
so go into the pile of the mutilated, too late bitch  
i will cut inside you with a smile cause its kill kill kill

kill

kill fucking kill

kill kill kill
