I lost goodness for you  
My sin is to know oneself  
And see the rotting inside of me

You destroy my mind

In your name of god  
I can see you crap  
In your name of god  
Fucking servant

Condemn me in your game  
That you'll believe

This is a mourning from which you'll never be again

You'll scratch your legs  
You'll swallow my sperm  
What's your vanity?  
This is your reality

Shout, I know you'll lose  
I know you'll bleed
