Barefeet, you take the lead
Walking the streets
As summer repeats
It's alright, alright

Grass stains cover our knees
Bring up the sheets
And we'll take the seat in this moonlight
Moonlight

You are my stairway to the stars
I'm higher than heaven with you
The whole of my heart
Up on the roof
Here in your arms
All of the world falls away
Here where we are,
Stairway to the stars

Things couldn't get any better
Trip out the sun
No change in the weather
It's alright
Alright

A telescope, we breathe in place
Universe on display
It's so bright
So bright

You are my stairway to the stars
I'm higher than heaven with you
The whole of my heart
Up on the roof
Here in your arms
All of the world falls away

Here where we are
Don't you wanna come?
Far away with me?
Let our feet leave the ground
Never turn around
See the city lights
On an August night
From above the clouds
Looking down now from your

Stairway to the stars
I'm higher than heaven with you
The whole of my heart
Up on the roof
Here in your arms
All of the world falls away
Here where we are

Stairway to the stars.
