I am now
I am only what I feel
I am more than what you see
That's only part of who I am
and all that I can be

I am truth
I am someone that you know
I am something that you fear
try and hide me
ignore me
but I will still be here

Cuz I'm a part of you
and you're a part of me
and when you understand this
then maybe I can fin'ly start to be
who I am
who I am
who I am

I am now
I am only what I feel
I'm so much more than what you see
that's only part of who I am
and all that I can be

Cuz I'm a part of you
and you're a part of me
and when you understand this
then maybe I can fin'ly start to be
who I am
who I am
who I am
