I wait for the day to break me I wait for the day to break
me

I look up to the sky I look up to the sky

I look back on my life I look back on the life that graced
me

Gratefully When you were mine

You were mine

The times comes ãfÂçâ, ã,Â! The time comes x 6

And then it goes And then it goes

Then it goes away Then it goes away

Don't try to read the silence Don't try to read the silence

Don't try to live it down And don't try to live it down

'cause I learned a thing or two 'cause I've learned a
thing a two

About patience About patience

And I have found And I've found

Repeat chorus

Repeat first verse
