A fear of the dark is a walk in the park
When you waste it, when you waste it
It's tearing me up but I wanna do it all
Now I taste it, now I've tasted it

Now I've taken a vow of sadness
I've got misery on my mind
And I get low, I get low, I get low, I get low

Mary and I making friends started fights
In the basement, in the basement
Tell me a lie with a cheap crooked smile
I can face it, I can face it

And I'm doing fine with my head in the clouds
Don't tell me not to look so glum
As I get low, I get low, I get low, I get low

[Instrumental]

The first twenty seconds of love
Blaming myself for the ride
But you can't fall apart
No, you can't fall apart
When it rains, when it rains

But you can't forgive yourself sometimes
But you can't forgive yourself sometimes
Because it's hard being wrong, for the 42nd time

And I get low, I get low, I get low I get low I get low
And I get low, I get low, I get low I get low I get low
