At the end of the long, long day  
Come go with me in the blue and the gray  
There's no up there's no down  
And there's no way around  
At the end of the day

I'll follow the line where the land meets the sun  
I looked to the hills where the dark has begun  
My fears are reserved for the deeds of the day  
That are faded away...

Chorus:

I'm gonna get by  
I'm gonna get through  
When the river runs dry  
I'm gonna cross to you  
There's no up there's no down  
And there's no way around  
At the end of the day

You're heart it is worn You're a bleeding machine  
A ghost hand lifts you up out of your dreams  
See the sunlight combed on the shapes at the fray  
At the end of the day

Chorus:

I'm gonna get by  
I'm gonna get through  
When the river runs dry  
I'm gonna cross to you  
There's no up there's no down  
And there's no way around  
At the end of the day
