I never wanna see you again with the beating of my
heart witness
I say no, no, no, no, I'm done I'm done

I never wanna see you again with the beating of my
heart witness
I say no, no, no, no, I'm done I'm done

I wanna get back to
I wanna get back to everything I had
Before you came around, you fucked me up,
What am I do to now
But in my mind I keep seeing you, seeing me,
And how good we used to be, used to be, used to be,
used to be, used to be
I keep seeing it, seeing me
And how good we used to be, used to be, used to be,
used to be, used to be

And now I'm finding I cannot deal with this
Going crazy wanna go leave you want in
Say you wanna work this out boy
Don't need to beg 'cause you'll never get it again

'Cause I'm better off this time this time
No not baby not this time around
Oh I'm better off this time, this time, not this time
'Cause I found out yeah, I found out now

Forgiveness is that all you want from me
I wont fall, into the arms of the one who to know me
Its getting to dark for me to see

So I keep flashing back to when we met
We were better then, better then, better then, better
then
I held you I didn't have to share it then
Better then better then better then better the
Now my mind is taking me back to this
Too much time to think about what it is
What made us fall apart

Well don't need to beg 'Cause you'll never get it again

'Cause I'm better off this time, this time
No no no not this time around
Oh I'm better off this time, this time
'Cause I found out you yeah I found out now

I'm better off this time this time
No baby not this time around
Oh I'm better off this time, this time, this time
'Cause I found out you I found out now

Oh you know I'm better off this time, better off this time
Oh you know I'm better off this time, better off this time
Oh you know I'm better off this time, 'Cause I found out,
I found out now

Oh you know I'm better off this time, better off this time
Oh you know I'm better off this time, better off this time
Oh you know I'm better off this time, 'Cause I found out,
I found out now
