At take off my heart starts to race  
Looks like everything is falling into place  
But for this kind of miracle cure  
it takes a lover's scorn to settle up the score...

Breathe in, breathe out  
It brings me closer...  
It's ok, it's alright...  
It happens every night

I've been chasing dreams  
all my life  
Now life is but a dream...

The chances are I'll never be the same  
And it's a feeling I don't ever want to tame

'Cause I could spend the rest of my days  
watching her move with elegance and grace

Breathe in, breathe out  
It brings me closer...  
It's ok, it's alright...  
It happens every night

I've been chasing dreams  
all my life  
And now life is but a dream...

Breathe in, breathe out  
It gets me closer

It's ok, it's alright  
It happens every night  
'Cause I've been chasing dreams all my life  
And now life is but a dream...

It's ok, it's alright  
Now life is but a dream...
