A sunny day
I wake up and I see I have overslept
I'm already late
No need to rush anymore
That feels so good I've got a new stereo That means
I've got a
New toy
I turned it on
I love the moment of picking a CD

Things are pretty simple around me
Days are quick to pass me by
All I wanna do is to be with my favorite things

My favorite songs My favorite TV shows are never
ending
My favorite books My favorite radio shows will never
Die
They echo inside me
No need to understand me

I light a cigarette
I'm still home
It's almost perfect to me

No one complains no matter how loud my music is
playing
Cause they are all at work
It's daytime
I wont do things I can do tomorrow
All I wanna do is to be with my favorite things

My favorite songs My favorite TV shows are never
ending
My favorite books My favorite radio shows will never
Die
My favorite songs My favorite TV shows are never
ending
My favorite books My favorite radio shows will never
Die

Don't force me to be the way you are
Don't tell me if I am good or bad

I wonder why people do not live their lives the way
They really
Want to
Things are pretty easy around me
It may appear I'm wasting my time
But all I wanna do is to be with my favorite things

My favorite songs My favorite TV shows are never
ending
My favorite books My favorite radio shows will never
Die
My favorite songs My favorite TV shows are never
ending
My favorite books My favorite radio shows will never
Die
They echo inside me
