Your touch, is the sweetest sin  
That I ever commit to  
You make it hard to forget you  
You, oh I  
I was cursed to be your flesh  
Met my Â...I bleed a new high for you  
I like this curse, I like the pain  
And I love the hurt inside  
Makes me feel alive  
And I like it, and I love it, mhm  
And I need it, bring it on, on,

[Chorus]  
I will be a fool  
I will be a fool for you  
If you let me fool with you  
I will be a fool for you  
If you let me fool with you  
And if you let your ocean spill  
I would gladly drink my fear  
Cause IÂ'm a fool, a fool

YouÂ're hot like fire, but you burn like a fire  
And my burning desire  
Draws me in like a moth to a flame  
I crave your affection, ah  
Just give me direction  
Good love letÂ's make that connection  
And I like it, and I love it, mhm  
And I need it, bring it on, on,

[Chorus]  
I will be a fool  
I will be a fool for you  
If you let me fool with you  
I will be a fool for you  
If you let me fool with you  
And if you let your ocean spill  
I would gladly drink my fear  
Cause IÂ'm a fool, a fool

You're the only one that makes me act up like this  
You're the only one that makes me act up like this  
You're the only one that makes me act up like this  
You're the only one that makes me act up like this

[Chorus]

I will be a fool  
I will be a fool for you  
If you let me fool with you  
I will be a fool for you  
If you let me fool with you  
And if you let your ocean spill  
I would gladly drink my fear  
Cause I'm a fool, a fool

You're the only one that makes me act up like this  
You're the only one that makes me act up like this  
You're the only one that makes me act up like this  
You're the only one that makes me act up like this
