You hide hurt by the things you did
I just couldn't imagine
Someone taking advantage of the love you give
And now it seems like i can't move on
So i think i gotta hold on strong
How can i help you get over it
I just say to see see

Pre Chorus:

Don't cry all those nights that you've tried
To put em in the past ..
Baby you have someone here
you want it to be in your life
But you just don't feel it
.. the right time
maybe girl you know i'm here
tryin to be patient but

Chorus:

it is the right time, girl you will be mine
girl you don't know how i feel
give me a chance
and i wanna make things right
holding by your side just sayin ..
tell em girl isn't right time

Tell me was the right time, tell me was the right time
yeah yeah

You think you're a fool for doing all the things you do
Girl there ain't even cool
You need to go and throw the blame on him
You was a game with him but with me
You never go on happy
What you .. you need to make a move
Girl was wrong with you it's like you have

Pre Chorus:

Don't cry all those nights that you've tried
To put em in the past ..
Baby you have someone here

you want it to be in your life
But you just don't feel it
.. the right time
maybe girl you know i'm here
tryin to be patient but

2 x Chorus:

It is the right time, girl you will be mine
girl you don't know how i feel
give me a chance
and i wanna make things right
holding by your side just sayin ..
tell me girl isn't right time

tell me when the right time
tell me when the right time
tell em when the right time
time,

[Pre Chorus:]

[Chorus:]
