I can't believe  
I'm holding on to everything you said  
When you don't say it anymore

So many people told me  
But I couldn't breath  
Just look at me now  
I can't believe  
I never knew that at all

It's so hard  
To realize why you always do this  
To me, yeah

If you don't open up your heart  
You don't wanna know  
How to get me back inside  
You don't know  
'cause everytime I try  
You always keep me waiting  
All alone - forever

I close my eyes  
To drift away, leave it all behind  
What I see is just the same

Maybe if I hold you  
So much to say  
But where do I start  
I can't believe  
That I never knew that at all

Its so hard  
To realize why you always do this  
To me, yeah
