Do don't won't

Here I am
Feeling down, feeling blue
Don't you know
What it is I'm looking for in you

Turn around, girl
Don't close your eyes I want the truth
'cause I got some thing to say to you - yeah

What if I do love you
What if I don't want to
What if I do - what if I don't - what if I won't

Can't you see
What I'm trying to explain
Not so hard
'cause all you need in life is the things you can't see

So turn around, girl
Just close your eyes and think of me
Now I got something to say to you - Yeah

What if...!

I can't decide it
'cause I can't tell what's right or wrong
At all

What if...!
