You got me stung,
Hey, hey yea, oh stung

I woke up and thought I was dreaming
When I read your text It said You caught me creepin on
myspace
Now I am your ex, your ex
I went to a double feature
I realize I don't need her
Baby girl I closed the curtain now
She's gone, she's gone
Sometimes you really can't see how good you got it
I lied to you, to you whoa

I never ever thought we'd end up like that
I never thought I'd ever go behind your back
But everyone needs a second chance
Like you and I, you and I
And now I realize you're the only one
I apologize for the things I've done
I guess the love bug has got me stung
It's you and I, you and I, I'm stung
Baby girl I'm stung
It's you and I, you and I
I'm stung

She asked me baby how could you do this?
This is what I said, I said
I'm sorry that I put you through it
But I don't want regrets
This is a very sad sad story
I hope it ends ok
Baby girl could you please forgive me at the end of the
day?
Sometimes you really can't see how good you got it
I lied it really wasn't greener on the other side

I never ever thought we'd end up like that
I never thought I'd ever go behind your back
But everyone needs a second chance
Like you and I, you and I

And now I realize you're the only one
I apologize for the things I've done
I guess the love bug has got me stung
It's you and I, you and I, I'm stung
I'm stung
It's you and I, you and I

If you're feeling me put one hand up one hand up one
hand up
If you're feeling me put one hand up one hand up one
hand up
(Everybody needs a second chance)
If you're feeling me put one hand up one hand up one
hand up
If you're feeling me put one hand up one hand up one
hand up
(Everybody needs a second chance)

I never ever thought we'd end up like that
I never thought I'd ever go behind your back
But everyone needs a second chance
Like you and I, you and I
And now I realize you're the only one
I apologize for the things I've done
I guess the love bug has got me stung
It's you and I, you and I, I'm stung
I'm stung
It's you and I, you and I
