"Hey Little Girl"

Visit "[Hey Little Girl](#)" on MotoLyrics.com

It took a while to happen
But I woke up to you
The promises you made of love
You never saw them through
So darling don't you cry
Tonight there's gonna be no lullabies for you and me
Can't you see, can't you see

Chorus:
Hey little girl
I'll make you understand
I can never feel that way again
And now you believe

Hey little girl
I 'll make you understand
I can never feel that way again
And now you believe
Can't feel that way again

No more magic in our love affair
The dreams we had for two
One tragic night, it's finally over
Believe in bad love you're through
So darlin don't you cry
Tonight there's gonna be no lullabies for you
