"Our Love"

Visit "[Our Love](#)" on MotoLyrics.com

Anytime things go wrong
Baby we'll still get along
'Cause we have each other
And our love will see us through
(And our love will see us through)

If some tears come our way
The sun skips a day
We still have each other
And our love will see us through
(And our love will see us through)

Just as long as you and I
Have a little tender kiss to share
There's no doubt at all that we'll get by
Gray skies will all turn bare

So when some clouds bring the rain
We've no cause to complain
'Cause we have each other
And our love will see us through
(And our love will see us through)

'Cause we have each other
And our love will see us through
(And our love will see us through)
