(Verse)

It's gonna be your favorite song
Baby tonight let's from the appetizer to main course
And go straight to desert
Girl close your eyes
I need you to concentrate while we going to work

(Verse)

Candle light and my kind of dining, oh girl
Just pour yourself a little wine
And everything will be alright
Don't be shy I'm not gonna bite too hard, girl
Make sure you on time, I'll be in room 69

(Chorus)

Dinner for two
Right in the bedroom
We don't need to shut the counter through
Dinner for two
You can go down on me
While I go to town on you
Dinner for two
Dinner for two
Dinner for two
And I ain't talking about food
Baby I'ma feast on you

(Verse)

Baby tonight, you're the only thing that's missing
From the mill I'm trying to make
We won't need no sign
Forget the strawberries and the whip cream girl
You're the only chocolate that I wanna taste

(Verse)

Candle light and my kind of dining, oh girl
Baby you can take your time
'Cause I'ma be up all night
Don't be shy I'm not gonna bite too hard, girl
I'ma make your body mine, it's going down in room
69

(Chorus)

Dinner for two
Right in the bedroom
We don't need to shut the counter through
Dinner for two
You can go down on me
While I go to town on you
Dinner for two
Dinner for two
Dinner for two
And I ain't talking about food
Baby I'ma feast on you

(Bridge)

You could be my waitress
Sexy waitress on call
I'ma be your waiter
You're the only one I cook for
In the kitchen
Got you down on all fours
I'm so anxious
Got me begging for more

(Chorus)

Dinner for two
Right in the bedroom
We don't need to shut the counter through
Dinner for two
You can go down on me
While I go to town on you
Dinner for two
Dinner for two
Dinner for two
And I ain't talking about food
Baby I'ma feast on you
