It don't mean a thing  
Oooh no, yeesh  
No offence but you girls, don't know what they don't  
know what thay talking 'bout  
Thay should stay on ...

They shouldn't even think at loud  
But they never meet a guy like me, me, me, me  
Ooh no  
I'll give you what affection that youve been want it  
And all my intentions, everyday i'll be calling  
Girl I've been sure that you keep on falling, falling,  
falling  
Give me chance  
Baby to be your man  
And I'll show you that they don't mean a thing  
Whatever you need baby you can count on me  
I'll show you  
I'll suppose to be girl  
They don't mean a think  
Tell me what I got to do to show you that I'm go on  
Girl this is your love

....  
Give me your heart  
You'll see that i never un away  
I'll stay with you on my arms  
I'll give you all the affection that you'll want it  
And iwth all my intention every day i'll be calling  
Girl I make sure that you keep on falling, falling,  
falling,  
Give me chance  
Baby to be your man  
And I'll show you that they don't mean a thing  
Whatever you need baby you can count on me  
I'll show you  
I'll suppose to be girl  
They don't mean a think  
Give me chance  
Baby to be your man  
And I'll show you that they don't mean a thing  
Whatever you need baby you can count on me

I'll show you  
I'll suppose to be yours girl  
They don't mean a think  
No doubt in my mind you're already are mine  
In will be this way 'till the end  
It won't change no matter what you'll decide  
Cause you're one of the kind girl  
Give me chance  
Baby to be your man  
And I'll show you that they don't mean a thing  
Whatever you need baby you can count on me  
I'll show you  
I'll suppose to be your's girl  
They don't mean a think  
Give me chance  
Baby to be your man  
And I'll show you that they don't mean a thing  
Whatever you need baby you can count on me  
I'll show you  
I'll suppose to be yours girl  
They don't mean a think
