Hey girl, what it is
I just wanna get to know you
I see you doing it big
And I just gotta holla at you
Just tell me what you want

And what it is you need in a man
Baby, just say the word
Your wish is my command

Is it affection from me?
Is it protection you need?
Someone steady, need a man with a plan, oh baby
Call me and I'll be there in a hurry
If you call me, girl you never have to worry

I've got to go, go a little harder
I'mma go, go a little stronger
I've got to go, go, 'cause I really want her
If I had her in my world I wouldn't need a thing
Just her, just her
Baby, it would be a dream
If I had her hanging by my side

Baby, let's go, have you made up your mind?
I just gotta know 'cause I can show you a real good time
Just follow your heart, don't need to listen to your
friends
I knew from the start, together we would win all

Is it affection from me?
Is it protection you need?
Someone steady, need a man with a plan, oh baby
Call me and I'll be there in a hurry
If you call me, girl you never have to worry

I've got to go, go a little harder
I'mma go, go a little stronger
I've got to go, go, 'cause I really want her
If I had her in my world I wouldn't need a thing
Just her, just her

Baby, it would be a dream
If I had her hanging by my side

I wanna love her, I wanna turn around
I wanna do all the things she only dreams about
I'll take her fantasies, make them all realities
She'll get the benefits if she's with me
If she's rolling with me

I've got to go, go a little harder
I'mma go, go a little stronger
I've got to go, go, 'cause I really want her
If I had her in my world I wouldn't need a thing

I've got to go, go a little harder
I'mma go, go a little stronger
I've got to go, go, 'cause I really want her
If I had her in my world I wouldn't need a thing
Just her, just her
Baby, it would be a dream
If I had her hanging by my side
