(Verse)

Bring that over here, baby girl I know you ain't leavin  
You know you wanna stay, Jordan see the way you been  
fiendin  
So let me put you in the dance and give you this nice  
long evening  
Girl you my number one, call MJ the way I beat it

(Pre-Chorus)

But if you don't want it, let me keep it and I'll have it  
For whenever you need you call me and I'll grab it,  
girl  
But if you do like it, come back for it, don't fight it

Oh how does it feel?  
Does it feel like a dream?

(Chorus)

Baby this is inception  
Oh it's just your imagination running away  
You give me a kick (kick), I give you a kiss (kiss)  
You give me a suck (suck), I give you a lick  
Girl, this is inception,  
Oh it's just your imagination running away  
You tell me you like it (like it)  
I know what you mean  
Have you ever been inside a dream? Inside a dream  
Girl, this is inception

(Verse)

Lay down on yo stomach,  
Girl get ready for this lotion  
Now you know that it's comin  
I could put the motion in the ocean  
What you laughin for? Ain't nobody in this room jokin  
I know you likin hardcore  
Way your body get into some choking

(Pre-Chorus)

But if you don't want it, let me keep it and I'll have it  
For whenever you need you call me and I'll grab it,

girl

But if you do like it, come back for it, don't fight it

Oh how does it feel?

Does it feel like a dream?

(Chorus)

Baby this is inception

Oh it's just your imagination running away

You give me a kick (kick), I give you a kiss (kiss)

You give me a suck (suck), I give you a lick

Girl, this is inception,

Oh it's just your imagination running away

You tell me you like it (like it)

I know what you mean

Have you ever been inside a dream? Inside a dream

Girl, this is inception

(Verse)

Don't be nervous, girl you're just in time aha

Baby, you could try to fight it,

But you gon get it up when I get up in yo mind oh oh

Girl, your body's gonna feel a little different

When you wake up to the world, you gon miss it

So baby take another nap and we could talk later

Bout how it was inside ya

Baby, this is inception

(Chorus)

Baby this is inception

Oh it's just your imagination running away

You give me a kick (kick), I give you a kiss (kiss)

You give me a suck (suck), I give you a lick

Girl, this is inception,

Oh it's just your imagination running away

You tell me you like it (like it)

I know what you mean

Have you ever been inside a dream? Inside a dream

Girl, this is inception

Girl, this is inception

Show me your dream

Girl, this is inception

Inception, inception

Girl, this is inception
