Bottles of patrol  
Take them to the...  
Got you all alone  
Naked in my bet  
Kissing on your neck  
Got your body saying yes  
Waiting for you girl I already know  
You are soaking wet  
We was on the phone  
Talking shit  
... looking on your jewels boy  
I am gonna give me some  
... you are my number one  
I am gonna top you off with a...  
Make you beg for  
Ride it ride it  
You baby you know that I love it right there  
Ride it ride it  
Till the wheels fall out  
Ride it ride it  
You know what you do to me  
Ride it ride it  
Till the wheels fall out
