(Verse)

I've never seen you around
Could you be new in town
Tell me would you like it

If I laid your body down

I'm sure that you got a member
But he ain't with you now
So I know you know a stop to go down, down

If it's alright, we can be out
On eye, till the sun's out
In the morning girl I swear that I'ma change
I'ma quit the game
But till then I'ma play

(Hook) x2

Every time I try to get my act together
She be saying she can't find nobody better
Sometimes I swear I wish I never met her
Everywhere that I go
I be tryin' to say no

(Verse : Problem)

All these girls they love me
All these girls they love me
You would think it's 'cause the money
Why these bitches wanna fuck me
But that ain't all it , nah
'Cause I know my thing when I'm in it
High as zippy then I kiss it
Have it banging in minutes
Like booyah! wow!
Your love is all everywhere
I see your water keep on flowing
Please somebody put a levi there
It's overflowin' I'm goin' deep like the loin
You want me come to your house
I'ma take that ride like I'm towing

(Hook) x2

Every time I try to get my act together
She be saying she can't find somebody better
Sometimes I swear I wish I never met her
Everywhere that I go
I be tryin' to say no

(Verse)

I be tryin' to be faithful
But it's like they know just when to call
When I hit the road, at the same time and they blowin
up my phone

Can't be faithful when there's so much love with her
I be trying to play fair,
My boys they be sayin' beware

'Cause they know,
It's hard to leave the trouble alone
They know
But I don't pay 'em no mind at all
So let's go

(Hook) x2

Every time I try to get my act together
She be saying she can't find somebody better
Sometimes I swear I wish I never met her
Everywhere that I go
I be tryin' to say no
