Live life free [x3]
Live your life, free
Live life, be free
(Free, yeah)
Live your life, free
Live your life, be free

Sometimes you just need to let go
Don't keep it all inside
Sometimes you just have to let the whole world know
That you're gonna be alright

So come on, give it up, give it up
Get into your rhythm
No need for you to be stressed

So come on, give it up, give it up
Get into your system
And find your happiness

Live your life, be free
You know you can have it all (you know you can have it
all)
Live your life, be free
You know you can have it all

And find your happiness

Live it up
Baby, yeah

Live your life, be free
Live life, free
Live your life, be free
Live life, free
You know you can have it all

Got to be free
Gotta be free

Sometimes you just need to let go (let go)

Don't keep it all inside (don't keep it all inside)
Sometimes you just have to let the whole world know
That you're gonna be alright

So come on, give it up, give it up
Get into your rhythm
No need for you to be stressed

So come on, give it up, give it up
Get into your system
And find your happiness

Live your life, be free
You know you can have it all
[x4]

You know, yeah...

Live your life, be free
Live life, free
Live your life, be free
Live life, free
You know you can have it all
