Wake up Wake up and fly out the door lots of things on
my mind
Who knows what tomorrow can bring you can't play out
how life should be
When the lights go out and you're dreaming about all
the things that could go wrong
You've gotta wake up and let the fear fall down take a
jump and just lay it down
Dancing Dancing through life
Who would have thought that we could make it by
One step at a time you've gotta follow what's on your
mind
Tomorrow's today and today is gone
Pick yourself up and start to run
Who knows if we go this fast we've got to make all the
good times last
There's no guarantee that life is easy
So you my as well make the best
Each day is a gift till you are dismissed
So you my as well make the best
Dancing dancing through life who would have thought
that we could make it by
One step at a time you've gotta follow what's on your
mind
Dancing dancing through life who would have thought
we'd have to stop and cry
Sometimes you've gotta say goodbye let all those
things just pass you by
I want you see the world hangs by a string
Find your eyes and see if this is where you want to be
It's just a little thing called Life
It's not that hard to get it right
Dancing dancing through life who would have thought
that we could make by
One step at a time you've gotta follow what's on your
mind
Dancing dancing through life who would have thought
we'd have to stop and cry
Sometimes you've gotta say goodbye
Let all those things just pass you by
Just a funny little thing called life Just a funny little thing

called life

(Life Life oh what a life we live... Life Life oh what a life
we're given)
