I don't remember how it started, this infatuation for you
I see you everywhere, I know you see me stare
Still, my heart is stuck on you
Boy you really light my fire & I don't know what to do
Got me in a daze, I wish you notice me
I got to make my move

You've been with me, in my dreams
I got to make it reality
Emotions flowing, through my body
Let's make this move
Can't you see that....

Well, if it was that I wasn't so shy
Then me probably wouldn't have been so blind
Would of sight you out & read between the lines
Emotions over flowing from those dreamy eyes, no lie
But if you only knew how much for you I feel you, just
the same
So many nights when me, I sleep, I feel you run through
my veins
And in the morning time, me wish we could meet face
to face
I gotta make the dreams become reality before it's too
late

You've been with me, in my dreams
I got to make it reality
Emotions flowing, through my body
Let's make this move
Can't you see that....

I feen for your romance, if you just give this love a
chance
Maybe one day you'll see, your love was made for me
I feen for your romance, if you just give this love a
chance
Maybe one day you'll see, your love was made for me
baby

Loving you, is all I want to do

Loving you, is all I want to do
Loving you, is all I want to do
Loving you, is all I want to do

You've been with me, in my dreams
I got to make it reality
Emotions flowing, through my body
Let's make this move
Can't you see that....
