### "Never Look Away"

Stand up in what you believe in  
There is no remorse  
Beware of the consequences  
To take force

Striving for the fear  
It's the only sense  
The end people suffer  
In the abuse in silence

Your mind obviously has to be the stronger one

Only use the force to your last resort  
Take all you've learned and put it all upon  
Release the bitterness, but Never Look Away

Never Look Away  
Stand up and look proud  
Keep your head up high  
Never Look Away
